

Cookie Policy

What is a Cookie?

A cookie is a small file of letters and numbers that we put on your computer if you agree. These cookies allow us to distinguish you from other users of the website which helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

The cookies we use are 'analytical' cookies. They allow us to recognise and count the number of visitors and to see how visitors move around the site when they're using it. This helps us to improve the way our website works, for example by making sure users are finding what they need easily.

Google Analytics Cookies (4 cookies)

Like many services, Google Analytics uses first-party cookies to track visitor interactions. These cookies are used to store information, such as the time that the current visit occurred, whether the visitor has been to the site before and what site referred the visitor to the web page. Browsers do not share first-party cookies across domains.
